

Specification Manual Related to Products Bearing Descriptive Labelling Referring to Organic Production Method

Part 3: Aquaculture Standard in Québec

Version 3.0
Last update of the requirements: January 7, 2016

The organic certification reference manual used to control the activities of aquaculture operators located in Québec corresponds to the technical requirements set out in the *CAN/CGSB-32.312-2012: Organic Aquaculture Standards* published by the Canadian General Standards Board (CGSB).

This document is available for a fee at:

<http://www.techstreet.com/cgsbgate.html>

The current standard *CAN/CGSB-32.312-2012: Organic Aquaculture Standards* has been developed for aquaculture. Therefore, these certification criteria are not applicable to land plants.
